## Avonmouth, Bristol, UK, 2013

*Materials Recycling Facility*

### **Installation of Materials Recycling Facility**

Ebsfleet Engineering Services undertook the installation of the recycling facility for US recycling machinery manufacturer Bulk Handling Systems who are based in Oregon, USA.

Ebsfleet supplied project management, skilled installation personnel and all specialist lifting equipment required to undertake the works.

Works commenced on site in early January 2013, and the main installation was completed by the end of March 2013.

The recycling facility forms part of Sita UK's Bristol Resource Recovery Park, and is designed to sort and bale 80,000 tonnes of dry recyclables per year, ready for reprocessing.
